

# LCCEF Leadership Change!

LCCEF leadership will be changing next Monday, December 3. I have accepted a position as the Software Services Manager in our IT department. In the last couple of years, college leadership hired multiple consultants to review the IT department. Each of these consultants recommended that the college hire a manager for the programming team. One of the big reasons I like my job here at Lane is because Bill Schuetz is such a supportive and empowering boss. To keep him as my boss I needed to apply for the management position over my current team.

I have enjoyed getting to know many of you and appreciate all of the support and help you have given me. Robin Geyer will take over as president and we will let you know who the new VP will be once the team has decided. Most of you have known Robin for much longer than you have known me. She will do a great job as President and I encourage you to give her your support.

*This message is being sent to avoid repeating any misunderstanding such as when our COPE Chair took an interim management position. [Details on that here](#). The LCCEF.org website will be updated to reflect these changes at start of business on Monday, 12/3/2018, and all credentials and permissions to LCCEF data will be changed to protect the integrity of our union. If you have any questions about this change, please don't hesitate to [contact us](#).*
